INDIKASIE
Simptomatiese verligting van pyn wat gepaard gaan met oppervlakkige sagteweefselbeserings, soos met sekere sportbeserings.

Eriteem. Afskilfering. Urtikaria en angio-neurotiese edeem kan voorkom by aspiriengevoelige pasiënte, na blootstelling aan direkte aanwending. Omdat dit alkohol bevat en moontlik 'n branderige gevoel kan veroorsaak, mag **Reparil® Gel** nie gebruik word op ekseemagtige of ulkusvormende dele, of op velareas wat aan terapeutiese bestraling blootgestel was nie, maar slegs op die dele daaromheen.
